PROFILE

I am a fresh graduate of the Informatics Engineering Department. I have basic knowledge in programming, software development, and information technology. I have a high enthusiasm for learning, am able to work in a team, and am interested in developing a career in the technology field and I am also enthusiastic about learning new things and contributing to a creative and educational work environment

EDUCATION

Universitas Indraprasta PGRI

August 2021 – September 2025

S1 Informatic Engineering - **IPK** 3.53/4.00

EXPERIENCE

Aplikasi Administrasi Perpustakaan SDIT Hidayatullah

September 2024 – January 2025

KKP (Kuliah Kerja Praktek)

Programmer Intern

- Develop a Java-based library administration application (desktop) to support the management of book data and other data.
- Work together in a team consisting of 7 people in the application system design and development process. Help design features such as managing book data, member data, librarian data, book loan data, book return data and book fine data.
- Coding, debugging and testing the application so that it runs well

PROJECT

SmileCam

March 2026

Tech Stack : Html, Css, JavaScript

- Building a web-based online photobooth application for real-time photo capture using the device camera
- Developing automatic timer features, photo filters, and output results in the form of photostrips
- Design interactive and user-friendly UI/UX
- Implementing a photo download feature as digital documentation media

To-Do List App

February 2026

Tech Stack : Html, Css, JavaScript

- Developing a web-based To-Do List application to help users manage and record daily tasks.
- Implement dynamic add, edit and delete tasks features.
- Design a user interface (UI) that is simple and easy to use.
- Manage task data storage so that it remains stored during application use.

Link : <https://boyzfire09.github.io/-CodingCamp-19Jan26-TengkuFadhil/>

Tech Stack : Java, JasperReport, Mysql

- Building an SPK application for selecting the best game cassettes using the Java-based Analytical Hierarchy Process method
- Implement AHP calculations to produce objective decisions.
- Developed tape data CRUD features, criteria, and subcriteria.
- Produce output in the form of alternative rankings and decision reports.

TRAINING

Coding Camp Software Engineering - RevoU

January 2026

SKILL

Hard Skill :

- Basic Programming language : Html, Css, JavaScript, Java
- Document Processing : Microsoft Word (Intermediate)
- Data Processing : Microsoft Excel (Basic)
- Mysql Database
- Design Basic : Canva
- Framework : TailwindCss, Bootstrap
- Version Control : Git & GitHub (Basic – Intermediate)

Soft Skill : Problem Solving, TeamWork, Honesty, Discipline, Communication, Time Management

Languages : Indonesian (Native), English (Beginner)
